PYCON UK 2016

THE ANNUAL CONFERENCE FOR THE UK PYTHON COMMUNITY

THURSDAY 15TH - MONDAY 19TH SEPTEMBER • CARDIFF UNIVERSITY • CARDIFF CITY HALL

Open Day

You are invited to attend the conference **Open Day on Thursday 15th September**. All activities on the Open Day are **free**, and suitable for a general audience. No programming experience is required to enjoy these sessions, which are aimed at university and high school students, researchers, teachers, academics and other members of the general public.

Talks

Talks will discuss topics including: Python in science; advice for aspiring programmers; Python for video games; artificial intelligence; building a Python-powered robot; creating and breaking security on the web, and more.

Workshops and other activities

Activities will include a Django Girls web application workshop; building a Raspberry Pi supercomputer; introduction to Python for complete beginners, and others.

Tickets

Tickets for the open day are **free**, but registration is required **in advance**.

See **pyconuk.org/open-day** for full details of the schedule, maps and more.

Email enquiries: **pyconuk-enquiries@python.org**.

About PyCon UK

PyCon UK is a five-day international conference for Python programmers.

The conference has a programme of talks, workshops, and other events aimed at the whole Python community, from web developers to hardware engineers, from professionals to hobbyists.

Tickets: **pyconuk.org/tickets**

About Python

Python is one of the world's most widely-used programming languages, used in mobile devices, science, web applications, robotics, mathematics and much, much more.

As well as being a key language for the Raspberry Pi and the BBC micro:bit, Python is used to program supercomputers and powers a number of global computer systems.
